EXPERIENCE

Disney Streaming New York, NY **2022-Present**
DevOps Engineer II

- Developed Jenkins CICD pipelines, leveraging aggressively parallel build paradigms to significantly reduce build times
- Crafted lean custom Docker images with multistage, cross-architecture builds for streamlined development processes
- Served as primary DevOps contact for client application teams, creating tailored Ansible deployment and configuration management scripts to help optimize provisioning, monitoring and application deployment
- Extensively worked on infrastructure as code methodologies, facilitating automated cloud infrastructure provisioning and effectively balancing costs by optimizing resource allocation and avoiding unnecessary expenses
- Drove SRE best practices by designing resilient Kubernetes deployment pipelines, implemented monitoring and alerting, and improved system reliability through proactive observability and incident readiness

Tools: Jenkins, Ansible, K8, AWX, Git, GitHub, GitHub Actions, Vault, Docker, Docker Compose, Terraform, Artifactory, Cargo, Maven, Jira, Amazon Web Services
Skills: Python, YAML, Groovy, Shell and Batch programming, Rust

BGC Partners New York, NY **2019-2022**
Development Operations Engineer (DevOps)

- Wrote production, QA and staging Ansible deployment scripts for all modules of ForexMatch trading system
- Implemented and managed GitLab and Jenkins CICD pipelines incorporating build, test, deployment, and code quality/vulnerability scanning processes to ensure seamless software delivery
- Transitioned multiple QA, staging and production environments from physical to virtual servers with configuration managed autonomously by Ansible
- Expanded multiple team's automated regression and smoke test coverage using Cucumber and Selenium

Tools: *Jenkins, Ansible, AWX, Vault, SonarQube, Fortify, Docker, Selenium, Cucumber, Nagios, UFT, Nexus, Artifactory, Apache, Tomcat, Maven, Allure, Jira, Git, GitLab CICD, Amazon Web Services.*
Skills: *Python, YAML, Shell and Batch programming, MySQL, SQL, Oracle, Java, JavaScript*

Maryville Consulting Group | Part of Accenture St. Louis, MO **Summer 2018**
Summer IT Associate – Assigned clients included Panera Bread, Emerson Electric and WellMed Medical Management, Inc

- Contributed to the implementation of ServiceNow IT field service and case management processes for Panera Bread
- Successfully completed ServiceNow System Administrator Certification and ServiceNow Implementation Specialist Exams

Deloitte Consulting LLP Boston, MA **Summer 2017**
Summer Intern – Assigned to the Rhode Island Unified Health Infrastructure Project (RIUHIP)

- Ensured quality and compliance on medical cases while monitoring and logging daily CCAP and medical case backlog burn down
- Served as the primary liaison for contracted state employees at Business Focus, Inc., and updated the daily progress report for Deloitte senior staff and the Rhode Island Governor's office

EDUCATION

Brown University – School of Professional Studies **Class 2026**
Master's of Science (M.Sc) – Technology Leadership

Washington University in St. Louis – College of Engineering and Applied Sciences **Class 2019**
Bachelor of Science: Major in Computer Science

- **GPA**: 3.84/4.00, Graduated Magna Cum Laude**,** Academic Dean's List: 2016-2019
- **Tau Beta Pi** (Engineering Honor Society) Initiated Fall 2018
- **Study Abroad:** King's College London

Cornell University – College of Arts and Sciences **2015 – 2016**
Bachelor of Science: Major in Computer Science

- **GPA**: 3.8/4.0 **SAT:** 2270 **ACT:** 35

ACTIVITIES & CERTIFICATES

- AWS Certified Solution Architect – Associate
- Certified Kubernetes Administrator (CKA)
- WashU and Cornell Men's Club Lacrosse, 2015-2018; MCLA All League Player 2017
